Size Selection

Socks

- Select the obvious sock size based on your normal shoe size.
- Measure the circumference in centimetres just above your ankle bone.
- If this suggests a different sock size then consider a larger or smaller size.
- Consider whether your ankle and calf dimensions are of normal proportions to each other.
- If your calf size is wider than normal decide on a larger sock size
- If your calf size is narrower than normal decide on a smaller sock size
- Remember that unlike most long socks and travel socks ours can be a relatively loose fit and still be selfsupporting so it is important to get the right size and they don't need to be too tight.

- If you have a vascular condition and you feel that your Thin Skin Protection Socks may be too tight just below the knee then seek medical opinion.

- Select the size nearest to your own measurements.
- Measure the circumference in centimetres of your upper arm just above your elbow and the circumference of your wrist.

2. Product Description

DERMATUff Thin Skin Protection Stockings and Sleeves are fully described on the company's website www.dermatuff.com. The products need to be worn every day in order to greatly reduce the likelihood of a skin tear or bruising due to an impact with a hard object. They are made with a specialist yarn spun with a mixture of a hard aramid and nylon and using a weaving system that provides further impact resistance.

3. Pricing

For larger quantities and/or very fast delivery a special delivery price can be quoted.

5. Delivery date

E-commerce orders that come in before 12 midday UK time are normally dispatched on the day of receipt of the order unless out of stock. For orders that come in after 12 midday UK time then please add an extra day to the

expected delivery time. Orders that come in after 12 middays on a Friday or the day before a Bank Holiday (UK) will not be dispatched until the next following normal working day.

6. Payment Methods

Payment can be accepted by bank transfer, cheque, money order or postal order. Credit and debit card facilities and ecommerce are available on this website, American Express credit cards cannot be accepted owing to the very high charges. 9. Returns and Cancellation Policy

Orders may be cancelled at any time between placing the order and up to 14 days after receipt; this cancellation must be made by letter or e-mail. Goods received after cancellation as above must be returned.

10. Product Effectiveness

Please note that we state on the website: The table for the trial results shows that it is not possible to guarantee that you will not suffer a skin tear, skin flap, laceration or bruising. What we can say is that we have proved by trials that there is a major reduction in the level of skin tears and bruising whilst wearing the socks or sleeves.

We cannot therefore replace products or make a refund if a skin tear or bruising does occur whilst wearing the skin tears protection product.
